Foundations in Art 7

Like in Art 6, this course continues to activate students' art learning through the use of art history, visual elements and studio art techniques, and group critiques. Through this three-pronged approach, our goal remains to build students' individual artistic capacities across the plethora of art mediums, and to build community by emphasizing the importance of useful feedback.

Art projects in the 7th grade focus on shape and positive vs. negative space (through drawing and cardboard sculpture), and rhythm, pattern, and movement (through painting).
